Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If no period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Applicant's Arguments / Amendments

This Office Action is responsive to the reply filed on 3/16/09. Claims 10-18 are pending. Claims 1-9 have been canceled. Claim 10 has been amended.

Applicant's arguments have been fully considered, but are not persuasive. Thus, claims 10-18 are finally rejected for the reasons of record.

Applicant's Remarks filed 1/12/09 are drawn to the former rejection and are now considered moot because of a new grounds of rejection taught herein.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Suzuki et al. herein referred to as "Suzuki" (Patent No. 5,076,306).

Suzuki teaches a dish washer with a dryer comprising a washing and drying compartment defined in a main body wherein tableware to be cleaned and dried are loaded, a washing pump for spraying cleaning water into the compartment a heater and fan for feeding drying air into the compartment after the spraying of the cleaning water, the dish washer with dryer comprising: a leading inlet 15 (cold side) and a leading outlet 16 (hot side) for drying air located on a compartment wall of the washing and drying

room; suction and exhaust holes for outside air located on an outer body wall of the main body wall; a circulating air pathway for connecting the leading inlet 15 with the leading outlet 16 and a cooling air pathway for connecting the suction hole with the exhaust hole between the room wall and the outer body wall; a double faced fan 21 (condenser) which forms a part of a partition board by which both pathways are partitioned. Suzuki further teaches use of a heater 13 (heater). Condensation is generated in the U-shaped pathway of the circulating air pathway 25 (see Figure 1).

In Suzuki the cooling/condensing and heating functions are performed sequentially in order to remove moisture from the air, then reheat it and deliver it back to the dishwasher; this reads on Applicant's claims wherein the heating and cooling of the air is passed through the conduit system at the same time.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
